# Experience

## Senior WordPress Developer

Construct Digital Pte, Ho Chi Minh City  
09/2016 - Present

<https://giant.sg>

This is a website to show promotion news for Giant Singapore. We use VueJS to build Front-End and WordPress as CMS.

<http://kaplan.com.sg>

Kaplan is a educational institute and we were contracted to redesign their WordPress website for Singapore. Along the way, there was additional scope and we had to development new features as well, which meant that the project took far longer to complete than originally planned.

---

## Senior Drupal Developer

Pyramid Consulting VietNam, Ho Chi Minh City  
01/2013 - 08/2016

<http://enviedebienmanger.fr>

With Pyramid Consulting, I participated in the migrate a large website using .NET to Drupal CMS. This site more than 2GB Microsoft SQL Server database and have over 700.000 members. Old site developed using .NET and our work is develop a Drupal CMS with new theme, a little new features and migrate their database to new system.

---

## Drupal Developer

Lenamsoft, Da Nang City  
05/2011 - 09/2012

<http://academicroom.com>

This is a social network website for education with over 12,000 members. We use Drupal 6 and more modules like: OG, Content Profile, Flags, CCK, Views... to develop it. With this project we wrote a lot of customize modules to meet customer feature requests.

---

## CodeIgniter Team Leader

Tinh Van Corp, Ho Chi Minh City  
08/2004 - 04/2011

With Tinh Van Corp, I worked as team leader to develop many CodeIgniter projects:

- Business Website
- CRM Web-base Applications
- Team Workspace Web-base Applications...
